*UP Payment Solutions is a sales and service consulting firm, created to help auto dealers directly increase revenue and operational efficiency. UP Payments started in June of 2013, with the motivation to provide retail merchants with UP-Graded Payment Solutions, with a focus on advanced technology & security, mobile & virtual payments, customer loyalty, real-time reporting, improved service & support and much more! Our goals to provide custom solutions are based on the specific needs of every business. Such solutions are created based on size, volume & number of locations, technology & security standards and more. UP Payments is NOT a direct processing company, but more of a relationship expert, making sure each dealership has the best service at the best price.*
